## Guidance for end-users to complete End User Statement form

*This End User Statement (EUS) form must be provided when you order military goods which are to be used by you (whether via a consignee or not). The documents must be completed on the paper with the logo your company except in the case when you are a natural person. The End-User Statement will be valid only if the document shall be presented to the Romanian competent authority in 6 months from the date of signing of the fourth Section*

- 1 The Romanian Licensee is the person (according to Romanian law) who is either the supplier of the goods outside Romania, or the broker who moves those goods, each of which may be direct to the end user or via a separate consignee
- 2 If not known, the transfer license references can be left blank for completion by Licensee.
- 3 The consignee is the person who is the first recipient of the goods. This can be yourself or it can be another person within your country or in another country. If you are both the consignee and the end user, then you must enter your own details in boxes c. and d.
- 4 As the end-user you will be receiving the goods for end-use and so such you must fill in boxes e. and f. If you incorporate the goods into another products or higher level system, then you are still the end-user for the purposes of the movement of the items.
- 5 The end-user in this section refers to the entity at the time of shipment
- 6 The goods in this section define those at the time of shipment. If goods are being incorporated into another product or higher level system then this information should be included in Section 3
- 7 The Romanian authorities need to understand what the goods are so a detailed description of the main item or items is required. If, for example, the main item or items are accompanied by a long list of spares, components, or accessories, you should also indicate this in page 3 (Annex). For consumable goods, include length of time supplies are expected to last
- 8 Set out the specific purposes for which the goods are to be used by the end user. If the goods are to be incorporated by you (for example installed into another product or higher level system) then that product/higher level system, its use and ultimate end user (which may be within or outside your destination) should be described in Section 3, where known
- 9 Section 4 must be signed and dated by you as the end-user of the goods mentioned in Section 2, in original and authenticated to the Notary Public. This includes the place where you incorporate the goods into another product or higher level system. This part must be signed by a person within your company with legal powers to sign on behalf of the company/organization. Digital signatures are not accepted.
- 10 All the parts of the document and the commitments of the end-user must be completed legibly and in English (or accompanied by a certified translation, including original header details if written in a foreign language). Correctness of the completion and the English translation must be verified by the Romanian licensee who has signed the transfer license application behalf of the company.
- 11 If the end-user chooses not to use the relevant template, then the Romanian authorities require an original signed and dated statement in English on their headed paper providing the same information and assurances
- 12 The same responsible official of the end-user should also complete, sign, date and attach a covering letter. This letter must be on their original official headed paper
