

Important - Read Me File

Control Lists 1996 to 1999:

- There is no Summary of Changes associated to these Control Lists.

Control Lists 2001:

- Due to the dramatic September 11th events, the 2001 Control Lists Review was concluded solely on 5 July 2002 with the publication of WA-LIST (01) 3.
- An earlier version, WA-LIST (01) 2 was published in May 2002.
- By Plenary decision the first version WA-LIST (01) 1 was not implemented at national level and, therefore it is not available on this WA Website. Nonetheless to ensure a complete information, changes to the Lists agreed by the December 2001 Plenary have been included in the Summary of Changes corresponding to version 2; i.e. WA-LIST (01) 2.

Control Lists 2004:

- In 2004, in line with the Plenary decision, a first version WA-LIST (04) 1 was made public. Another version, WA-LIST (04) 2 was published in June 2005, following the complementation of work that could not be concluded during the 2004 List Review (Low-light level/infrared sensors and associated cameras – Category 6).
- Both versions are available.

Updated information, will be included in this Read Me File as need arises in the future.
